You are invited to:

- Participate in a 3-day personal learning group that will be facilitated by participants of the Gestalt GroupWorks training program.
- Work in a safe and confidential environment on your own personal challenges and professional growth.
- To learn the Gestalt method by listening to the feedback and teaching points delivered to your student facilitators from the leaders of the Gestalt Center for Coaching.

The Event:

- The Gestalt Center for Coaching will be delivering a Gestalt GroupWorks training: Dec. 18-23, 2018 in Istanbul. During this training, attendees will be learning and applying the Gestalt theory and method of working with personal growth and other types of groups.
- In this training, **attendees will lead and work with groups of learners** for three days, and receive feedback and supervision from faculty.
- You are **invited to be a part of this group of learners**.

In volunteer group configurations of ten to twelve people, group members will be provided the opportunity to experience a personal growth group and to learn some basic concepts about facilitating group processes by being a part of it. At the minimum, this is an opportunity for the group members to increase interpersonal skills and obtain feedback from others about personal presence and their impact on others. This workshop is one of our most vibrant methods for learning about one's own emotional intelligence.

We will be working in English, with Turkish translation whenever needed.

Distinctive Facilitation:

The facilitators leading this workshop experience are professionals from a variety of fields, i.e., coaches, therapists, counselors, consultants, coaches, teachers, and others who are involved in specialized training in Gestalt Groupworks to improve their knowledge and skills in working with groups. These facilitators will focus on group dynamics leading to personal growth for the group members.

Sitting outside the group will be faculty members of The Gestalt Coaching Program. The faculty will focus

on group leader interventions that influence the development of the group. The volunteer group members are invited to hear the discussion between faculty and the group leaders so that a rare opportunity for learning is provided. This is one of the strongest and most exciting ways to learn about group work.

Time & Venue:

The sessions will be held at **Safir Yasam Merkezi, Papyrus Plaza, Istanbul**
Dec. 20-21-22, 2018 (Thursday, Friday, and Saturday) between 2:00-5:00 pm.

Agreement:

Because of the nature of group learning, **we ask volunteer group members to attend all three sessions**. This learning opportunity is open to people from all walks of life. We welcome people who are interested in learning about themselves in relation to being in groups.
